EXPERIENCES

Pentester Intern

June 2022 – August 2022 | 3 Months (remote)

Bilishim Cyber Security & Artificial Intelligence

- Learned most common web security vulnerabilities, detection and exploitation methods.
- Practiced pentest techniques on Portswigger with around 120+ vulnerable labs.
- Collected solution of this labs and pentest researching notes in [Github](#)
- Made some manual security tests for some websites.

SecOps intern

September 2021 – October 2021 / 2 Months (remote)

JotForm

- Learned about attack vectors, exploitation and prevention of web vulnerabilities.
- Developed web crawling and vulnerability scanning tool, which I called recon scanner.
- Features:
 - Subdomain, port and directory traversal vulnerability scanning.
 - Xss finding and Whols domain searching

EDUCATION

- Akdeniz University - B.Sc in Computer Engineering 2017 – 2022
- Fethiye Anatolian High School 2011 – 2015

SKILLS

- BurpSuite
- Python
- Java
- JavaSpring
- Linux (Kali)
- HTML
- CSS
- JavaScript
- SQL

SIDE PROJECTS

[E-commerce](#) (Graduation Project)

- Used technologies: JavaSpring, Jpa, PostgreSQL, Docker. Thymleaf.
- Backend: add, delete, update, get operations for product, user, order and cart.
- Admin panel for frontend that contain crud operations for products.

[Credit Application](#) (Bootcamp Project)

- Patika Bootcamp credit score backend project.
- Shown credit approval status according to monthly income and credit score information.
- Credit result sent to the user's phone as sms.
- Used technologies: JavaSpring, PostgreSQL, Jpa, Docker, Twilio.

[Recon Scanner](#)

- Web crawling and vulnerability scanning tool that I developed during my internship.
- Features: Whols, subdomain scanner, port scanner, directory traversal finder, XSS, finder.

[Pentesting Notes](#)

- Lab solutions and my pentesting notes which I wrote about OWASP 10 vulnerabilities during internship.

ATTENDED COURSES

- Patika JavaSpring Bootcamp | [JavaSpring Certificate](#) (18 December - 6 February 2022)
- Bahçeşehir Uni. Cyber Sec. Winter Camp: Penetration test training (27 January- 31 January 2021)
(Given by BlackBox Security)
